## ABOUT U.M.C.A.

U.M.C.A. Rich Tree Academy is a private, non-denominational, co-educational day school located in Thornhill, Ontario. Founded in 2003, U.M.C.A. Rich Tree Academy provides differentiated and enhanced instruction for qualified children from Kindergarten through University Entrance Courses. The school offers programs for grades 8 to 12.

At UMCA we offer **76** courses for our students and help them to pick the ones that will be the best fit for their future careers.

## HIGH SCHOOL CREDIT PREP

At U.M.C.A. students begin their exposure to high school credits in grade 9. Students in grade 9-12 assume more responsibility for their own learning and more opportunities for individual choices are provided.

At U.M.C.A. students have the **unique opportunity to visit universities** where they will sit in on a class and learn how to prepare for success.

## UNIVERSITY PREP

Our program develops young professionals, ready to tackle the challenges of post secondary academics. We continuously have Universities contacting us, offering our students **advanced placement programs and tuition scholarships.**

We are proud of our students' **100% university/college acceptance record**

**UMCA alumni are proud students of many Canadian and US colleges and universities.**

They pursue degrees in Liberal Arts, Social Sciences, Fine Arts, Business and Finance fields.

## SPORTS EDUCATION

Our state of the art facility allows students to experience many kinds of sports.

Hockey	Ping Pong
Basketball	Gymnastic
Tennis	Dance
Soccer	Swimming
Figure Skating	

## GIFTED LEARNING EXPERIENCE

We are committed to the specialization of teaching gifted children to ensure the development of their unique, outstanding potential. A combination of accelerated, enriched and individually prescribed experiences is the best type of programming for children who are intellectually gifted.

## ADDITIONAL PROGRAM FEATURES

To ensure that our students have a blend of the appropriate level of challenge as well as **mastery of basic skills**, we use the following practices:

- Internet access is available to enhance research skills
- Smart Board is used for class instruction
- Math students are grouped according to their individual levels of ability

## EVENING COURSES

The **Night School program** is an ideal alternative for those who have daytime commitments, but who prefer to learn in an in-class setting. Class sizes are small and allow for individual attention. Students enrolled in an evening course are eligible to receive open tutoring **FREE** of charge.

**QUALITY CANNOT BE QUALIFIED**

**ACCEPT ONLY THE BEST FOR YOUR CHILD**

## OUR FORMER STUDENTS IN CANADIAN UNIVERSITIES

Roman Semin: Waterloo University, System Design Engineering  
Rizvan Mansurov: University of Toronto, Computer Science  
Michelle Iliyassov: York University, Nursing  
Sean Mazor: York University, Nursing  
David Mandel: York University, Bio Med  
Yoad Cohen: San Diego State University, Athletic Training  
Alan Khodatalab: Schulich School of Business  
Galina Stratan: York University, Kinesiology  
Linor Kravitz: Ryerson University, Graphic Communications  
Itamar Zaltzman : University of Toronto, Rotman Commerce.  
Vladislav Baryshnikov: York University, International Business  
Eric Cocuz: Guelph University, Computer Science  
Adam Hander: York University, Collab. Nursery  
Shelly Insar: Waterloo University, Life Science  
Yana Kochetova: Guelph University, Life Science  
Yael label: Ryerson University, Architecture  
Filip Lukic: University of Toronto, Actuary Science  
Ariel Mendelevich: York University, Computer Science  
Shelly Mezheritsky: York University, Nursing  
Filipp Mishra: Ryerson University, Mechanical Engineering  
Volodymyr Rozhkovych: Ryerson University, Biomedical Engineering  
William Wang: Dalhousie, Applied Computer Science  
Sarit Winstok: York University, Kinesiology and Health Science  
Sofia Ilina: University of Toronto, Computer Science  
Daniel Grinev: Ryerson University, Civil Engineering  
Alexandra Fogel: Ryerson University, SMT Financial Mathematics  
Yuriy Belous: Guelph University, Biological Science  
Nikita Ross: Laurier University, BBA  
Jonathan Hovich: Guelph University, Software Engineering  
Ron Gofman: Ryerson University, Engineering  
Alex Zaguliaev: Ryerson University, Business Technology Management  
Steven Gorodetsky: York University, Administration Studies  
Yuriy Orbtsev: Seneca College, Computer Science

Daniel Zavalkovsky: Guelph University, Life Science  
Bryan Tietz: Queens University, Commerce Business  
Ester Shutov: York University, Kinesiology  
Dana Portnoy: Ryerson University, Nursing  
Ilonna Parnitska: Waterloo University, Kinesiology  
Victoria Sapanovich: Ryerson University, Nursing  
Alisa Rootzit: York University, Kinesiology  
Michal Barhan: George Brown College, Nursing  
Keren Shmaya: Ryerson University, Nursing  
Anna Romachov: Western University, Nursing  
Veronica Khaikin: Ryerson University, SCD - Creative Industries  
Velinsky Michelle: Waterloo University, WP-Planning  
Ora Avshalomov: York University, Science  
Daniel Bar: York University, Medical Science  
Shavit Belopolski: Ryerson University, Science  
Alexander Blinov: York University, Science  
Danil Boutcharski- Schulich School of Business  
Arina Cazac: Western University, Medical Science  
Avery Cazes: Schulich School of Business  
Sophia Davidov: Ryerson University, Nursing  
Mathew Dolgonos: Guelph University, Chemical Engineering  
Maria Duka: York University, Science  
Oleg Efimov: Ryerson University, Chemical Engineering  
Julia Goleva: British Columbia English Literature  
Ron Hovich: Queens University, Biology  
Tom Ister: Ryerson University, Chemical Engineering  
Allison Kapps: Waterloo University, Business  
Koribkov Ivan: York University, Nursing  
Karim Lemelev: Laurier University, Business  
Bill Kravzov: York University, Engineering  
Nikol Levitin: York University, Science  
Steve Metko: University of Toronto, Engineering  
Eytan Mezhibovsky: Schulich School of Business  
Ilan Mikhailitsyn: York University, Biology  
Miri Miriev: Ryerson University, Architecture

Sara Mustafa: York University, Science  
Natalia Pan: York University, Health Science  
Sam Pinsky: York University, Science  
Ksenia Polyakova: Schulich School of Business  
Ava Sadat Sharify: Guelph University, Science  
Katerina Savenko: Ryerson University, Business  
Lior Shaykevich: Ryerson University, Chemical Engineering  
Anastasia Sichov: York University, Science  
Daniel Slobodkin: York University, Science  
Lior Tovbin: York University, Chemical Engineering  
Yoel Troyb: Schulich School of Business  
Mali Tumarkin: York University, Nursing  
Rai Tumarkin: Schulich School of Business  
Alex Velikiy: Schulich School of Business  
Allen Vorobeichik Schulich School of Business  
Rayyan Yashku: Ryerson University, Chemical Engineering  
Allan Zilberleib: Ryerson University, Business  
Daniel Bar: York University, Bio Med  
Rayyan Yashku: Ryerson University, Engineering  
Alina Pinsky: Western University, Bio Med  
Daniel Yunes: Queens University, Commerce  
Edward Biazrov: York University, Bio Med  
Elizabeth Krouglova: York University, Nursing  
Emily Shtrachman: York University, Bio Med  
Eugene Sergeev: York University, Business  
Malvina Tumarkin: York University, Nursing  
Mark Biazrov: Ryerson University, Engineering  
Matan Winstok: Waterloo University, Nano Tech.  
Parmis Malekghasemi: York University, Kinesiology  
Rafi Tumarkin: York University, Business  
Roni Dubrovich: Ryerson University, Nursing  
Ted Berlovich: York University, Business  
Yoel Troyb: University of Toronto, Engineering  
Bill Kravzov: York University, Engineering  
Ronnie Natra: York University, Business  
Pavel Oganyan: Queens University, Business
